

Job Summary

Company Description

Positive Reinforcement ABA Therapy, Inc. was founded to provide children with Autism the opportunity to grow, learn and succeed.

Our agency provides quality services to people on the autism spectrum. Our philosophy is to put families first and help improve the quality of life for children with autism. We believe in a collaborative team approach and utilize all the experience of our team to help others. At Positive Reinforcement ABA Therapy, Inc. we use high quality and scientifically proven treatment based on the principles of Applied Behavioral Analysis (ABA) that meets the individual needs of each family.

Job Description

The Registered Behavior Technician provides one on one ABA based treatment in the home, school and other clinical settings based on the needs of the families.

- RBT will receive ongoing training to improve on skills. They must pass a competency-based test to receive the RBT credential. Training will be provided from Positive Reinforcement ABA Therapy, Inc.
- RBT can turn their job into a career as a Board-Certified Behavior Analyst (BCBA), once they meet the educational and supervision requirements to sit for the BCBA exam.
- With the guidance of a BCBA we follow evidence-based treatment to reduce challenging behavior and promote skill acquisition.
- RBT collect data on the progress of skills and behavior. They also record progress through summaries and graph the data at the end of sessions.
- Submission of medical records and time digitally daily via internet submission.

Openings

-We are seeking candidates with availability to work between the hours of 10:00am- 8:00pm and/or weekends. Maximum 40 hours per week.

-We will be conducting interviews via phone to start once we review all resumes. **No phone calls will be accepted prior to interview.**
